

20260425 On More About the Block Leaders

1) I am being spied upon by this group of terrorists inside of my own home.

Literally, I experience an ongoing sound track to agitate my life with direct relationship and proportional response to the activities that I conduct inside of and around my own home.

If you don't believe that this is possible, then I encourage you to brush up on your knowledge of the modern American military spying powers.

For example (while watching me inside of my home, they run a constant stream of vehicles playing various forms of music or machinery making various types of sounds past the front of my house to constantly drive their illegal Nazi-spying oppression into my home - at all times):

Based on reports in April 2026, the phrase "If your heart is beating, we will find you" is associated with a highly classified CIA technology named **"Ghost Murmur"** used to rescue a downed U.S. airman in Iran. 🇺🇸 New York Post

Key Aspects of the "Ghost Murmur" Technology:

- **Heartbeat Detection:** The system reportedly uses long-range quantum magnetometry to detect the electromagnetic signal of a human heartbeat from miles away,, according to sources cited by the [New York Post](#).
- **AI Integration:** The technology pairs the heartbeat data with artificial intelligence to isolate the signal from background noise, described as hearing a voice in a stadium.
- **Origin:** It was reportedly developed by Skunk Works, the secretive advanced development division of Lockheed Martin.
(deployed 'legally' for the first time after illegally playing with the 'toy' for years)
- **First Use:** The system was allegedly deployed for the first time in a real-world mission to locate a downed American airman in the Iranian desert. 🇺🇸 New York Post +3

Contextual Details:

- The phrase "In the right conditions, if your heart is beating, we will find you" was mentioned by a source familiar with the program.
- CIA Director John Ratcliffe alluded to using "exquisite technologies" that no other intelligence service possesses to find the airman, comparing the task to "hunting for a single grain of sand in the middle of a desert". [TRUST ME, 'IT' IS WATCHING US USING PREDATOR VISION - AT MINIMUM](#)
- The technology is designed to detect the faint electromagnetic signature of a human heart (magnetocardiography) at distances far beyond normal capacity, functioning best in remote areas with minimal electrical interference. 🇺🇸 New York Post +2

Know this for a fact: the illegal spies inside of the USA government have the ability to watch you inside of your house. They can 'see' through the walls, the roof, however it is accomplished, I am promising you as a God's honest fact - the American spying machine can watch us inside of our home - in real time and respond in real time - 24/7 using their positions within the American intelligence community (this is by no means legal law enforcement

activity . . this is a crime against me called 'official oppression', 'witness tampering' and civil causes of action for private nuisance, and intentional infliction of emotional distress)

New Tech Gives Soldiers Predator-Style Heat Vision

Unico's JourneyHub software will pair with temperature-checking kiosks with 'Predator vision' to keep office workers safe.

Sci-fi-like temperature checking hubs with "Predator vision" are being set up in Melbourne buildings determined to get workers back.

Sophisticated office management software will be paired with kiosks armed with temperature sensors and facial detection to keep staff away if scans indicate they are unwell.

Meanwhile prominent landlords including Charter Hall are looking to retrofit high-quality air filtration capable of catching particles as small as 7 nanometres, less than the size of SARS-CoV-2, backed by ionisation to kill bugs and viral particles.

Any way, back to the point about the Nazi Block Leaders . . .

2) These filthy trash even had the nerve to paint onto our new house that this was 'their' personal corner! (What the fuck?!)

Look at this photo - we didn't know who Richie was when we bought the house - then we learn that our spy Freemason neighbor is named David Richie, he keeps showing up in front of our car as we try to leave down the narrow exit road - blocking our path with him, his scooter, and his pack of miniature rat dogs.

Good lord. Couple this fact with the 'corner' tag and then donut mark at the drive nearest to our new house and you can get the picture of what Nazi Block Leaders are doing to their Christian 'neighbors.'

This is the first photo that I found of the writing. It says 'The Richie Corner' literally and admittedly named after the David and Anne Richie that I was just writing about - because they were 'good friends' with the former owner. So they paint their names on the house before selling it to the new buyer? I am not kidding around. This is what is happening in neighborhoods around the world as the worst group of spying, snooping, oppressive people are being fed resources to grow themselves while oppressing and pushing out the better (more reasonable, more educated, more polite, more likely to help the community) people that live around them.

We went from being oppressed in San Antonio, Texas by Freemasons on behalf of Donald Trump's political campaign to being oppressed by Freemasons in Periana Spain - and they had no idea that they were working as tools of the same Donald Trump that they admittedly despised! These people are stupid!

Anyway, if and when I find a better photo, I will post it up. But, for now, I have a life to live.

These trashy people hiding

inside of our government, military, media, and neighborhoods are burning my life away, day by day by day - hour by hour - and writing this proof to you only helps them to do it.

Blockleiter

Article Talk

From Wikipedia, the free encyclopedia

Not to be confused with [Blockältester](#) or [Blockführer](#).

Blockleiter (Block Leader), where *block* refers to [city block](#), was from 1933 [the title of a lower Nazi Party political rank](#) responsible for the political supervision of a neighborhood. Referred to in common parlance as **Blockwart** (Block Warden), [the Block Warden's duty was to form the primary link between the Nazi authorities and the general population](#). The [derogatory term Blockwart](#) ("snoop") survives in [German colloquial language](#). [Nazi Snoops](#)
